

Fund objectives, policy and target market

The investment objective of the Emerging Markets Fund is to grow the real value of investors' capital and income. Investments will be in companies operating or incorporated in emerging markets. An equal emphasis will be placed on the generation of income and on capital growth. Real value is defined as the value of capital and income after adjusting for the impact of inflation (UK Retail Price Index 'RPI').

The fund invests at least 50 per cent in companies operating or incorporated in emerging markets. The fund may invest in any geographical area and any economic sector.

Investors should intend to invest for a minimum of 3 years, and accept that the value of their investment can rise and fall significantly due to the nature of the underlying investments in the fund. The fund will however allow ready access to their investment. The fund is only suitable for investors who are prepared to accept the risk of loss of their capital.

Fund allocations

Target asset allocation

Target geographic allocation

Note: Target portfolio allocations as at 30th June 2025. Actual allocations may vary. *Incl. cash and UK companies whose main operations are in emerging economies.

The Investment Adviser's approach to responsible investing

McInroy & Wood Limited is the investment adviser (the 'Adviser') of the fund. The Adviser is committed to responsible investing. Details of the approach it takes can be found in its Statement on responsible investing: mcinroy-wood.co.uk/investment-management/responsible-investing.

Performance record

You can assess how well the fund has performed against its objectives to grow the real value of investors' capital and income by referring to the change in the RPI over the same period. Please note that the figures below refer to the past, and past performance is not a reliable indicator of future results.
